Generac

Honeywell Portable Generator 2000 W Inverter, 49 State/cETL

6066

Item Description: This Honeywell inverter easily travels to wherever power is needed. Packing more power generation per pound than standard portable generators, they are super-quiet, lightweight and easy to move with the built-in handle. Hosting a tailgate party or planning a camping trip? Include your Honeywell inverter to power appliances, TVs, or laptops. Then bring on the food, drink, and game highlights. **Notes: Product ships with no additional shipping fees. This model is 49 state/CSA approved.

- Inverter technology provides lightweight, quiet, fuel-efficient portable power.
- EcoMode™ automatically adjusts engine speed to respond to the amount of power needed. This results in fuel savings and reduced noise.
- 30% lighter than a standard generator of equal watts.
- Microprocessor controls provide the clean power needed to run sensitive electronics like a computer or television.
- Low oil shutdown and electronic overload protection for secure operation.
- Charge DC batteries with included charging cables.

iPad Pro 9.7" 32GB

Powering the 9.7" Retina display is the Apple A9X chip with a M9 motion coprocessor. The 3rd generation 64-bit chip can pump out desktop-class CPU performance and console-class graphics. The faster performance allows you to multitask with ease, using iOS 9 features, such as Picture in Picture, Slide Over, and Split View. Also, the iPad Pro is capable of playing three simultaneous 4K video streams in iMovie.

The iPad Pro comes with iOS 9 installed, which features proactive assistance as well as powerful search and improved Siri features, all while protecting your privacy. There are the aforementioned multitasking features for iPad, which allow you to use multiple apps simultaneously, as well as improvements to built-in apps. The Notes app has been redesigned, the Maps app gives detailed transit information.
