

Community Focused: Giving Back During the Holiday Season

Franklin Pediatric & Adolescent Care served as a drop off location for Toys for Tots. The staff also put together two Thanksgiving baskets to donate to families in need! Keep up the great work Franklin Pedi!

The Administrative office participated in the Holiday Angels program through the Salvation Army. They made the holiday brighter for 20 local children and filled the back of a van with their generous donations! Great job!

Kellie Beschi, an Insurance Claims Representative at our Administrative Office, coordinated a food donation bin in the break room. Thanks to the generous donations of our staff, Kellie was able to make two different donations: one the week of Thanksgiving the second in mid-December for two food banks in the area. Thank you Kellie for putting that together and encouraging the office to give back to our community!

The staff at Whitinsville Pediatrics adopted a family of 4 in their community. The team donated food items and gifts to help make the holidays brighter. Thank you, Whitinsville Pediatrics, for supporting your community!

Harriet Rauffenbart, Registration Scheduler at Franklin Primary Care, organized a toy drop off for the Jimmy Fund to benefit the children at Dana Farber! This program allows children receiving treatment in the outpatient clinic to be given a toy to play with during treatment, and take home afterwards! The staff were extremely generous with their giving throughout the holiday season! Way to go Franklin Primary Care!

****Are you giving back to your community and want to share it with our team? Are you running a marathon or participating in charitable cause? Are you volunteering with your local community? If so, we would love to hear from you! Please email thepulse@milreg.org to share with us, and we will add it to our next issue!****
